EXPERIENCE PORTFOLIO

PRODUCT.
PEOPLE.
GROWTH.

A collection of work across product management, team leadership, innovation and brand building.

HANDS-ON EXPERIENCE / REAL PROJECTS

EcoBuddy

A waste-reduction idea built around a local problem.

STARTUP PROJECT

THE IDEA

EcoBuddy was a startup I co-founded with friends. We set out to help reduce waste in Lagos, Nigeria through an app-led concept.

MY ROLE

I served as the product manager, helping guide the team as we shaped the idea and worked towards presenting the solution.

MILESTONE

The project had the opportunity to be pitched to the Chairman of the Lagos Waste Management Authority (LAWMA).

EcoBuddy identity

PRODUCT THINKING

Turning a community challenge into a product concept worth sharing with stakeholders.

Stakeholder discussion

From concept to prototype

Ladies in Tech summit • Multi-month learning and build experience

THE EXPERIENCE

I participated in a Ladies in Tech summit where we learned 2D and 3D design, then explored how a digital design could become a physical product using a laser printer.

TEAM LEADERSHIP

For the innovation challenge, I was selected to lead a group. I divided responsibilities among team members, taking their different strengths and areas for development into account.

WHAT THIS SHOWS

Team coordination • Delegation • Creative problem-solving

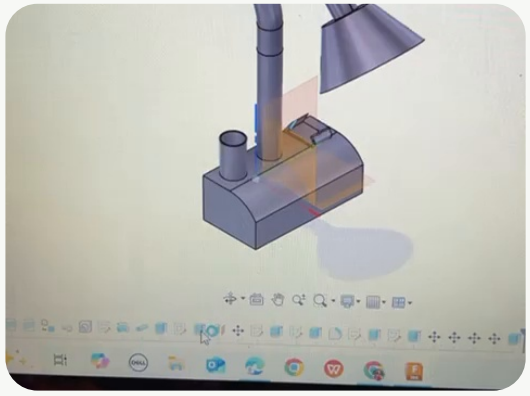

Learning agility • Moving from design to physical output

Speaking at the summit

Team prototype work

DESIGN → BUILD

The learning moved beyond the screen: our group explored a tangible 3D innovation.

Crunchbox

Building a food brand with a clear identity and customer focus.

Crunchbox brand mark

FOOD BUSINESS

FOUNDER / BRAND BUILDER

I started Crunchbox, a food business serving student customers with convenient, flavour-led food options.

MARKETING IN ACTION

- Building a recognisable visual identity
- Creating social-first promotional content
- Communicating menu offers and delivery information
- Using playful, relatable messaging to engage customers

BRAND IDEA: BIG FLAVOUR. BOLD EXPERIENCE.

Learning, applying, improving.

PRODUCT MANAGEMENT

BETECHIFIED

Certificate in Product Management

Certificate attached on the next page.
